Global Brigades is an international student-led nonprofit that focuses on providing impoverished areas with the foundation necessary to improve their communities. On their brigade this past year, they worked with Panamanian doctors and dentists and set up a medical clinic in the rural Darien Province of Panama. They were able to see 352 patients in just 3 days! They are now working hard to raise money to go on another brigade to Honduras. Your support will help them buy medicine and supplies for their medical clinic. [You can donate online here.](#)
